Care4Us Pharmacy Formulary

The MSSC pharmacy program uses Care4Us Pharmacy formulary management, which brings together health care professionals in a system to achieve clinically sound, cost-effective medication therapy. Effectively using health care resources in this manner helps to minimize medical costs, improve patient access to more affordable care, and provide an improved quality of life.

This preferred drug list is continually updated. The primary purpose of this formulary is to encourage the use of safe, effective, and most affordable medications.

This list is applicable ONLY to the Care4Us Pharmacy located on 7665 US Hwy 70, Bartlett, TN, next to the Care4Us Clinic.

ASM Part #	Brand or Generic	Prescription or Over-the-Counter (OTC)	Description	Form	Size	Strength
